Caveats

- Data is as at 19-DEC-2022 for reporting year 2022 (year to date) and has been sourced through administrative data held by the Tertiary Education Commission (TEC).
- Data relates to the following funding source:
- Gateway
- The TEC does not hold information on the types of Gateway programmes that are delivered to learners, only the employer and vocational pathway.
- All learner places values in this information request have been rounded to the nearest five. Where values are less than five, the actual value has not been provided for privacy reasons. These can be identified by the "<5" value. Due to rounding, the underlying values may not add up exactly to total values.
- **A single learner is counted as a learner place, regardless of how many placements (or start dates) they have in a year. Note not all places are funded, as a school needs an allocation before places are funded. For delivery purposes, these placements are counted, however they would be excluded when calculating funding.**
- Learners can be counted more than once when they are reported in more than one School. The totals in the tables remove learners that are counted more than once. Therefore, the sum of learner places by individual categories may not equal the totals in the tables.
- Results are based on information reported through Gateway fund-specific data collection templates for the purposes of funding tertiary education. Gateway enrolment reports are submitted in July and December and data is from the most recent reports in a year. In some cases, this will not be the December enrolment report. The data does not include any reporting outside of the Gateway report and relies on the accuracy of data reported by TEOs.
- This data has been compiled specifically to respond to this question. It uses administrative data collected by the Tertiary Education Commission for the purposes of funding tertiary education, and relies on the accuracy of data reported by TEOs. Care should be taken when making comparisons with data collected or compiled for other purposes.

Gateway Fund Provision in Hawke's Bay Schools (2022 Year to Date)

- The number of learner places reported in the latest enrolment reports for the year. A single learner engaging in Gateway may have multiple placements but will only be counted as a single place for funding purposes.
- The Tertiary Education Commission (TEC) does not hold information on Gateway programmes that are delivered, only the Schools that are engaging with Gateway funding.

Question 1: How many Gateway programmes are currently being run in Hawke's Bay Schools and which school?

- There are 18 schools in Hawke's bay that have run Gateway programmes in the 2022 reporting year. The TEC does not hold information on types of Gateway programmes.

Question 4: Which employers are involved in these programmes?

- TEC does not hold information on Gateway programmes. We have instead provided what employers are relevant to Hawke's Bay schools that engage with Gateway.
- The employer field is a free text field for schools to populate and submit to TEC. It is not validated and relies on the accuracy entered by schools.
- Some employer names have been redacted for privacy reasons.
